When uploading work to Freshgrade or Seesaw, be sure to take clear photos so that your teacher can provide feedback easily.

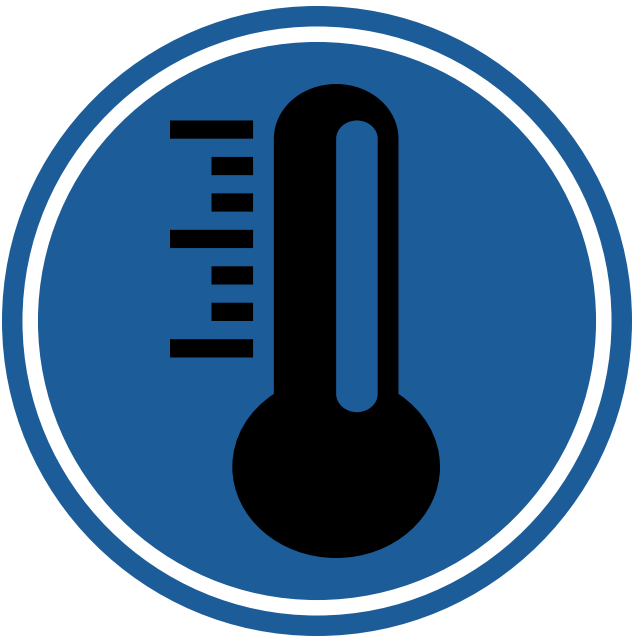

School code of conduct standards still apply whilst you are working from home - remember to use kind courteous and polite language. Please do not enter chat rooms or share school work or resources on social media.

If you are participating in an online group, class call, or you are sending in video footage, you need to be dressed appropriately (no pyjamas) and in a suitable working space (not your bedroom).

Parents may need to assist and support you with your work, but it is important that you try to attempt your work independently so that your teacher can provide you with valuable feedback.

Unless you are sick, you are expected to do your best to complete and upload required work for the day and or week.
