

20th March 2022

Dear Parents and Carers,

I am writing to advise you that there has been a positive case of COVID-19 associated with Orana Catholic Primary School.

It has been determined that there are no school-based close contacts of this case, as they were not at school whilst infectious. No students or staff are required to quarantine at this time and all students should attend school.

Nonetheless, this news should come as a timely reminder for all members of our school community to monitor for COVID-19 symptoms and seek testing if symptoms develop.

Advice for all families and staff:

- The school and OSHC remains open.
- We ask that you monitor your child/yourself for symptoms of COVID-19 and if symptoms develop, get tested and isolate until you receive a negative result.
- If you or your child develop any symptoms, please do not attend school/care services.
- Please note that the Omicron strain can present with less typical symptoms such as diarrhoea, particularly in children.

Our school continues to work in partnership with WA Health as we respond to the pandemic.

If you have queries or concerns regarding your child please contact the school. If you have any health concerns, please contact WA Health on 1300 316 555.

Kind regards

Dee Johnston
Principal
